

## WAITA-EACRI Cassava Biofortification Field Trial — Udi LGA, Enugu State, Nigeria

Plot layout (UDI-2026-001 through UDI-2026-012) plus high-fertility control plot UDI-2026-070. Sown 2025-04-12 (Y1) and re-sown 2026-04-15 (Y2 schedule). Yields shown are Y1 harvest (kg/m<sup>2</sup>) measured 2026-08-28 — 2026-09-10 and anchored to the consortium Airtable base Cassava-Biofort / Field-Trial-Udi.

|                                                   |                                                     |                                                      |                                                         |
