

Bates Brewing Sustainability Report - Q2 2026

Reporting period: 1 Apr 2026 - 30 Jun 2026 (Q2 2026)
Prepared by: Greg Holloway, Asst. Head Brewer
Reviewed: Larry Bates, Head Brewer / Owner

Resource use vs prior quarter

Metric	Q1 2026	Q2 2026	Change
Water use (gal / BBL)	5.8	5.3	-8.6%
Electricity (kWh / BBL)	62.4	59.1	-5.3%
Natural gas (therms / BBL)	3.1	3.0	-3.2%
Spent grain donated (tons)	11.4	13.8	+21.1%
Recycling (lbs glass diverted)	2,180	2,420	+11.0%
Recycling (lbs cardboard)	640	710	+10.9%
Hop pellet packaging (landfill)	84 lb	78 lb	-7.1%
CO2 captured & reused (lbs)	0	180	new program

Highlights

Spent grain offtake to Brookwood Farm (12 mi) replaced four monthly compactor pulls; grain is now picked up live within 36 hr of mash. Pilot CO2 capture from FV-2 fermentation began 5 May 2026 — recovering ~30 lb / week for carbonation reuse.

No regulatory submissions due. This report is for internal tracking only and supports the annual French Broad Riverkeeper Sustainable Business renewal in January.
